

CONTINUING EDUCATION CONTENT

Provide a **Comprehensive and Accredited Continuing Education Program** Your Diverse Multidisciplinary Staff Wants with the **Budget Certainty** You Need.

With Swank HealthCare's course library, your facility gains access to courses that meet the requirement of over 100 regulatory agencies and licensing entities.

✓ **NO HIDDEN FEES**

In the last 5 years, no customer has been charged additional fees for custom reports, technical support calls, content uploads, customer service calls, remote webinar training or refresher training.

✓ **CONTINUOUS ACCESS TO NEW CONTENT**

Swank HealthCare has premiered 180 new courses each year for the past 15 years.

Your staff can choose from an **extensive online library** of courses covering **18 disciplines**. The courses feature the highest quality medical content, **accredited at state and national levels**.

Our Continuing Education Library is available on Swank HealthCare's Learning Management System® (LMS) with **24/7/365 live support** and online access. The LMS allows busy professionals to **learn when and where it's most convenient** and keeps track of individual employees' training assignments and their progress to **reduce your effort and expenses**.

Staff will have **continuous access** to our extensive course library plus the addition of **15+ new courses each month**. Swank HealthCare customers experience the benefit of our unique product offering and excellent 24/7/365 customer service. With no limits on the number of courses taken or number of users accessing the content, you'll have **budget peace of mind**.

"By subscribing to the Swank HealthCare program, we were able to provide more CE and CME opportunities to our staff while anticipating a 32% reduction in our education costs."

-West Park Hospital in Cody, WY

"The great educational tools that you provide to us are very useful. Now our facilities are receiving the benefits and our soldiers are getting the training that reflects the quality needed these days to defend our nation."

-Captain, Army Community Hospital
