

REGULATORY COMPLIANCE

Meet Your Annual **Regulatory Training** Needs with One **Flexible Program**. **Customize the Content** with All of Your Facility Specifics.

For the last 5 years, customers have added over 5,000 of their own courses to customize their programs from Swank HealthCare with no additional cost or training!

NO LIMITATIONS

Swank HealthCare provides the ability to upload unlimited custom content in the LMS: Swank Learning Management System®

Meet hospital accreditation requirements and CMS compliance with our customizable, comprehensive Regulatory Training program and **easily add your**

own facility-specific content. Clinical and non-clinical staff will receive engaging information on the topics they must be proficient in, such as:

- **Abuse and Violence Reporting**
- **Age-specific Training**
- **Ethics, Rights and Responsibilities**
- **Infection Control**
- **Medical Error Awareness**
- **Pain Management**
- **Restraint and Seclusion**
- **Maintaining Patient Privacy (HIPAA)**

The training curriculum is **updated every year** to reflect updated requirements and healthcare developments. Courses are available in

English and Spanish and can be reviewed in video, audio or text so users can **watch, listen or**

read the training depending on their preferred learning style. In addition to our streamlined course offering and General Staff education library, hospitals are welcome to create supplemental courses to meet individual facility needs.
